

**SO YOU CAN HAVE  
MORE OF THIS.**

I look forward to the robust discussions each month as we stabilize and grow our business. Key team members!  
*- Klaus Fink*

Love how their team is always working to help me grow.  
#mycpaisbetterthanyourcpa  
*- Melanie Stinnett*

A totally out of the box approach to accounting service.  
*- Bryan Powers*

This strategic planning experience was extremely refreshing and has paid major dividends in every area of our company!

**THE • HUB**

BETTER BOOKS FOR  
A BETTER LIFE.

# THE EXECUTIVE FINANCIAL TEAM YOU CAN LEVERAGE TO FIT YOUR NEEDS.

Every task on your list is a distraction from you doing what you are **BEST** at. Chasing your financials no longer has to be on that list. You don't have to settle for more questions than answers with your books. And you don't have to settle for not achieving the **BIG THING** you set out to do. **The Hub** by **Duckett Ladd** was founded so you can have a better life **INSIDE** and **OUTSIDE** of your business.

## AUTOMATED BACK OFFICE

Forget the hassle of data entry, payroll, and managing your own accounting department! We record and balance your books so you can see up-to-date numbers anytime.

## TAX SYSTEM

The best tax plans start in January, not December. Our tax professionals consult with you throughout the year to maximize your strategy for limiting liability.

## GROWTH & PROFITABILITY CONSULTING

We become the instantly affordable financial analysis team to help guide your business in making growth and cash flow decisions.

## STRATEGIC PLANNING

We help you identify what you want for your business, your team, and your life, then work with you through the process of attaining all three.

We believe life is too short to do things you aren't passionate about.

We believe every business can achieve more with outside perspective.

We believe in outsourcing weaknesses.

We believe going to your accountant should be a relief, not a stress.

We believe you need more than an accountant, you need a partner.

## CUSTOMIZED DASHBOARD

Every Hub client has **INSTANT** access to the numbers that actually matter to them **ANYWHERE** in the world. No more confusing books, no more second guessing decisions.
